SQL Data Base Administrator

Parliamentary Digital Service
From £30,150 to £36,170

The Parliamentary Digital Service (PDS) works with the [House of Commons](#), the [House of Lords](#), and Parliament staff on their IT and digital needs.
We think it's important that everyone can access and understand what's going on in Parliament. Our goal is to bring together the public, Parliament Members, and Parliamentary staff to inform, engage, support, and communicate through one, unified digital core – PDS.

What we're looking for:

A dedicated and capable individual to support our SQL Server databases.
The role:

- You will be responsible for the creation, monitoring and maintenance of production, pre-production and development databases.
- You will also be required to contribute to the troubleshooting of database issues.
- The job involves working closely with Application, Support, and Operational teams.

Who you are:

- You're likely to have good exposure to infrastructure and specialist SQL Database Administration skills.
- You're an excellent team player with a natural ability to work collaboratively within and have the desire and aptitude to acquire new knowledge and skills
- You're a great communicator that's always looking to develop your skills and improve processes.

What you'll need:

- Troubleshooting SQL server environment, management
- Knowledge of performance tuning, backup/restore, DR processes/procedures, high availability, PowerShell
- Experience of continual service improvement, which the most important area for this are life cycle management
- Exposure to technologies such as AD, DNS, DHCP.

What we offer:

- Starting salary of between £30,150 and £36,170 (depending on experience)
- 28 days holiday
- Flexible working
- Access to training and development
- Excellent pension scheme
