A review has now been completed in respect of the above, with due consideration being given to the agreed Terms of Reference.

All the Templates in relation to Subject are based on Intelligence, and relate to the following:

**REVIEW OF EVIDENCE**

Having carefully considered all the above templates, the following considerations are now given:
In respect of template 6, this relates to a Bombing in England on 20.7.1982. I have reviewed the papers and can find no evidence that would indicate that Subject is wanted by the PSNI for this offence. He is still wanted by the Metropolitan Police subject to any further new evidence.

In respect of the other templates, there is no evidence or material that can provide sufficient grounds to have Subject circulated at this time.

RECOMMENDATION

1. That Subject is listed as “NOT WANTED” by the PSNI at this time.
2. That clarification be sought from Metropolitan Police as to the current position with their circulation of Subject.
