

Elections and voting – Level 3 walkthrough

This guide offers a suggested user path suitable for 14–18 year olds

This walkthrough covers:

1. Getting started

2. Main menu

3. Going to the polls

4. Results are in

5. Compare the vote

6. Next steps

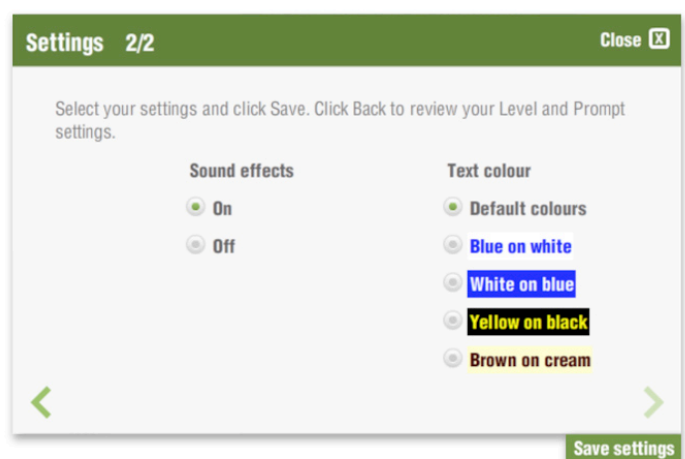

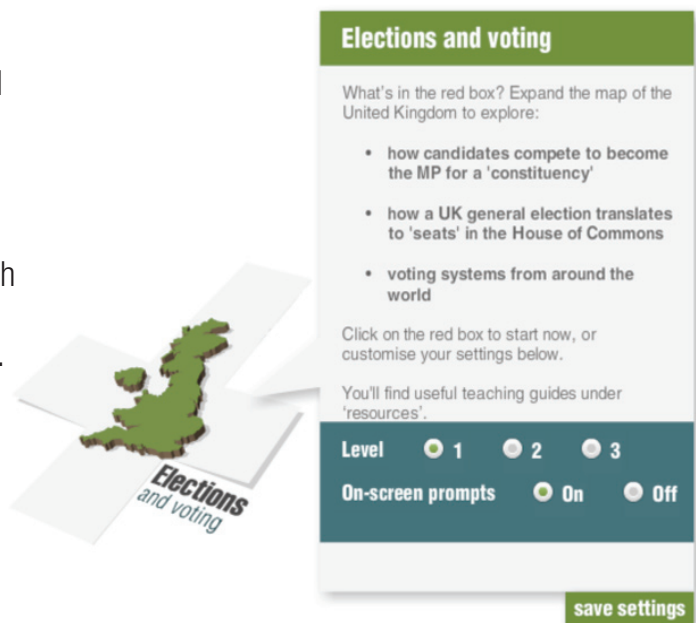

1. Getting started

The first screen introduces you to the resource and allows you to choose your **level** settings and **on-screen prompt** preferences.

Level 3 is suitable for 14–18 year olds.

On-screen prompts suggest an activity path through the resource. They are turned 'on' as the default setting and are recommended for first time visitors.

To change your settings preferences at any time click on the **settings** box in the side menu.

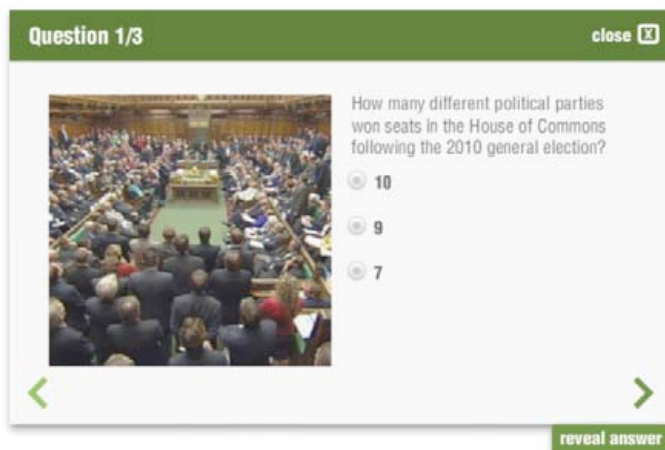

Within the settings box you can also select your preferences for **text colour** and **sound effects**.

To enter **Elections and voting**, click on the red box. If you've already rolled over the red box with your mouse, it will have expanded to reveal an outline map of the UK – click on this to start.

2. Main menu

Elections and voting's three primary activities can be accessed from the **main menu**.

When you first arrive at the **main menu**, you are presented with a three-question quiz about **Elections and voting**.

Use the **arrow icons** to click through the question screens. Check your responses using the **reveal answer** button.

You can access these questions at any time from the **resources** box in the side menu.

You can also skip the questions – by closing the question window – and move straight to the main activities.

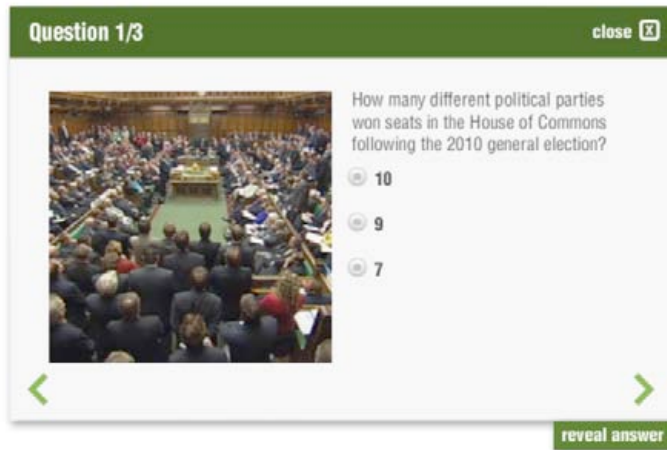

When you've finished with the questions and return to the **main menu**, an on-screen prompt will appear. This prompt will guide you through the three activities in the order outlined below.

You can click on the title bar to minimise (or hide) a prompt and click on the bar again to maximise (or show) it.

3. Going to the polls

Question 1/3 close X

How many different political parties won seats in the House of Commons following the 2010 general election?

10
 9
 7

← →

reveal answer

From the main menu, click on **Going to the polls**.

You can begin the **Going to the polls** activity. It invites your class to compete for a seat in the House of Commons.

When you first arrive at **Going to the polls** you're presented with a three-question quiz.

You can either answer these now or close the question window and access the quiz any time via the **resources** box in the side menu.

Use the arrow icons to click through the question screens. Check your responses using the **reveal answer** button.

You've finished. Well done! close X

Now it's time to think about your own election campaign.

Download the [Going to the polls worksheet](#)

Split the class into groups, then click **start** to get campaigning.

← →

start

When you've completed the quiz, download the **Going to the polls** worksheet from the pop-up window.

You will need to use the worksheet throughout this activity.

You can use the slider bar at the foot of the screen to access each of the four sections in **Going to the polls**:

- Parties
- Manifesto
- Campaign
- Election

Parties

Create your political parties.

Type each party name into the field at the foot of the screen then click **make party**. The party name will appear in a coloured bar at the top of the screen.

To discard a party use the icon on the party name bar.

You can create up to six party names.

When all parties have been created, click **Manifesto** on the slider bar to continue.

Manifesto

Use the word cloud to create a manifesto for each party.

To assign an issue, click on a party bar to open its manifesto panel. When you select an issue from the word cloud it will be added to your manifesto list.

You can use the free-text field to add your own issue. Type in the issue name then click the **[+]** symbol to add it to your manifesto list.

To remove an item from your manifesto, click the **[x]** symbol alongside it.

When all parties have prepared their manifesto using the **Going to the polls** worksheet, click **Campaign** on the slider bar to continue.

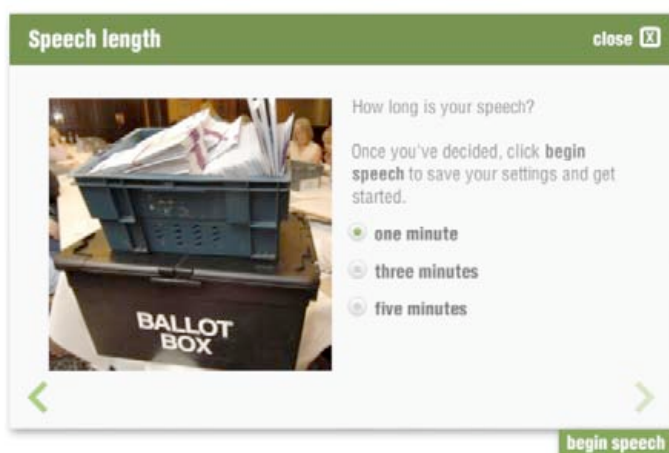

Campaign

You can set up a campaign for each party.

Use the **arrow icons** to click through the screens if you wish to change your selections.

Select the party name then choose a location for your campaign speech.

Select a speech length for your party then click **begin speech**.

The screen displays the campaign speech backdrop for a party. It includes the party name and manifesto.

Candidates stand in front of the display to deliver a speech.

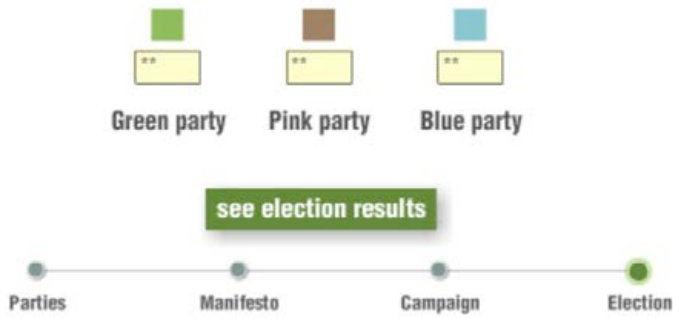

Control the timer using **pause** and **reset**. Change parties using **switch candidate**.

A prompt will appear when the **time's up**.

Click **next candidate** to change the backdrop and party details.

When all parties have delivered campaign speeches, select **vote now** to continue.

Election

At the end of the campaign you can hold a class vote (**Election**) and display the results.

Type the votes for each party in the spaces provided, then click **see election results**.

Your election: choosing a winner 5/5 ☐

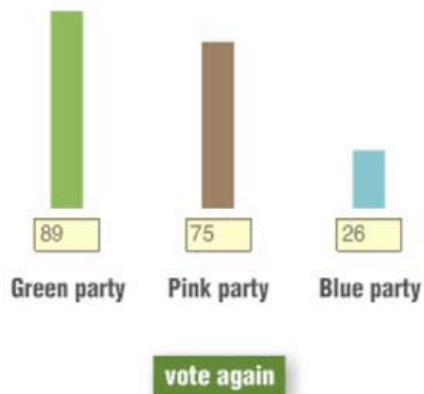

Check your results, then click **main menu** to keep learning about elections.

The bar graphs indicate how many votes each party received.

To hold further votes click **vote again**.

When you've accessed all four sections of **Going to the polls**, click **main menu** to continue.

Congratulations! You've won a seat in the House of Commons.

4. Results are in

Activity: Results are in close X

Results are in lets your class explore how a UK general election translates to 'seats' in the House of Commons.

Click **inside the chamber** to see a new Member of Parliament take up his seat.

inside the chamber

From the **main menu**, click on **Results are in**.

You are now inside the Palace of Westminster and can explore how a UK general election translates to 'seats' in the House of Commons.

There are three sections:

- Inside the chamber
- Winning party?
- Change the results

Click on **inside the chamber** to continue.

Activity: Results are in close X

Results are in lets your class explore how a UK general election translates to 'seats' in the House of Commons.

Click **inside the chamber** to see a new Member of Parliament take up his seat.

inside the chamber

Inside the chamber

The introductory screen gives you access to the House of Commons chamber.

Click on **inside the chamber** again.

Watch how seats in the chamber fill up then use the slider bar to continue to **Winning party?**

Winning party?

You can see which seats in the chamber are taken up by the winning party.

Click on **Change the results** to continue.

Getting into government
close ✕

Political parties compete in the general election to win a big prize: a chance to form the government and run the UK.

Download the ['Results are in' worksheet](#) and click **change the results** to explore how different results affect who governs Britain.

>
change the results

Change the results

To explore how different results affect who governs Britain, download the **Results are in** worksheet.

Use the **arrow icons** to click through the screens or **close**.

Click **change the results** to continue.

Slide the tabs to change the results of a UK general election. The chamber seating plan will change as you slide the tabs.

Change the election results so that no single party has an overall majority, then create a coalition government. To do so select two or more tabs and add the number of seats together.

For example, $247 + 116 = 363$, would mean that the blue and green parties could form a coalition government.

Click **Winning party?** on the slider bar to compare your coalition with the winning party image.

Click the **[i]** icon for further information on forming a government.

Forming a government 2/3 close X

A coalition government is when two or more parties agree to work together. By joining forces the coalition parties can combine to command the loyalty of most MPs.

With a majority of the seats, the government can be confident it will have enough support for its ideas and plans during votes in the House of Commons. But what if a coalition government can't be worked out?

The diagram shows two vertical bars representing the composition of the House of Commons. The left bar is a single white block. The right bar is composed of four colored blocks: light blue, green, brown, and red. A small icon of a person is shown between the two bars, representing an MP.

The screens detail the different ways a government can be formed.

Use the **arrow icons** to click through the screens.

When you've accessed all three sections of **Results are in**, click on the **main menu** box to continue.

5. Compare the vote

Compare the vote
close

A democracy is a political system where people elect representatives to make decisions and govern. But every democratic system doesn't work in the same way. Choose two systems to compare, then click **start**.

- UK and European Parliament
- UK and US lower houses
- UK lower and US upper house

start

From the main menu, click on **Compare the vote**. You can compare a number of different electoral systems.

Select which two electoral systems you wish to compare, then click **start**.

	Voting system	Available seats
 House of Commons		
 European Parliament	<div style="background-color: #00A0C9; color: white; padding: 5px; display: inline-block;">proportional representation</div>	

736

first past the post

650

Drag the labels and drop them into the spaces on the table.

You can click **reset** to clear all answers.

	Voting system	Available seats
 House of Commons	first past the post	736
 European Parliament	proportional representation	650

reset
revise

When you have positioned all of the labels, click **reveal** to check your answers.

Use **revise** to change your answers

You can click **change category** to compare two other electoral systems.

Use the **arrow icon** to continue.
