Agreed Statement: HS2 Ltd and CLA

In response to the petition submitted by the CLA there has been constructive dialogue between the Promoter and the CLA with regards to the issues raised in the petition.

The Promoter has taken significant steps towards addressing the concerns raised by the CLA. In addition to extending those assurances provided to the CLA for Phase One to Phase 2A, further assurances to landowners affected by the Phase 2A scheme have been provided covering:

- Estimated claims for compensation and interim payments for temporary occupation of land;
- Notice of entry for temporary occupation of land;
- Consideration of requests to exercise powers of compulsory acquisition; and
- Acquisition of land that is temporarily occupied but where permanent ownership is required.

The Promoter has also agreed to include in the Phase 2A Farmers and Growers Guide, and engage the CLA in the preparation of, an explanation of the safeguards for landowners affected by the Phase 2A scheme. These include:

- The assurances provided to the CLA and landowners, including:
  - The commitment not to acquire more land than is required for the scheme, and
  - The commitment to consult with a landowner regarding the detailed design of the works.
- The provisions of the Compensation Code, and
- The statutory duty of care set out in the note provided by the Promoter.

Given the steps taken by the Promoter to address the concerns raised, the CLA has agreed to withdraw their petition.

The Promoter will shortly publish the assurances provided to the CLA for the benefit of landowners affected by the Phase 2A scheme.
