3 September 2018

Dear Anthony,

Pensions Dashboard

I noted with great interest the news that your firm has been canvassing support among leading pension providers for the creation of a fully industry-led dashboard in the event that the DWP decides to end its involvement in the project.¹

The Committee firmly believes that the pensions dashboard will be a “vital tool” for informing and engaging savers.² We were therefore concerned by reports that the Government might withdraw its support, and recently pressed the Minister for Pensions to confirm when and how the Government will announce its intentions.³

As you pursue your initiative with industry partners, might I please ask that you write to the Committee to keep us apprised of any further developments?

With best wishes,

Rt Hon Frank Field MP
Chair
